北京聚睿众邦科技有限公司

Beijing JU RUI ZHONG BANG HIGH-TECH CO. LTD

Has passed SEMI assessment for SEMI certificate services

Certificate No. /证书编号: C2022DOS

Certificate Expiration/证书有效期: April 6, 2023

SEMI International Standards Program is a key service offered by SEMI for the benefit of the worldwide electronics design and manufacturing industries. SEMI standards cover many topics related to electronics manufacturing: 3D-IC, Equipment Automation (Hardware and Software), Flat-Panel Displays, Facilities, Gases, High Brightness-LED, MEMS/NEMS, Materials, Microlithography, Packaging, Photovoltaic, Process Chemicals, Silicon Material & Process Control, and Traceability. Guidelines are also developed to cover safety related issues.

The requirements for compliance to SEMI Standards certification, such as S series and F series, are becoming common stipulations in semiconductor industry. Standards transcend international boundaries.

Lung Chu
President of SEMI China
